“ Sanofi Aventis : Duphat is an unique initiative, a good forum and an opportunity to share our experience and best practices among our colleagues from different countries, we would like to thank the organizers. Every year we think that this is the best we can do, but every year it gets better ”

**Dr. Mohammed Ibrahim**  
Head of Key Account Management,  
Gulf Countries, Sanofi Aventis

“ Since about 20 years, DUPHAT became a leading scientific platform and meeting place for regional and international pharmaceutical scientists in the Middle East.

I had the chance to participate actively to previous editions of this meeting, and I have been impressed by its scientific quality, with lectures covering topics such as personalized medicine including pharmacogenomics and therapeutic drug monitoring, specific involvement of pharmacy in chemotherapy, WHO initiatives, patient safety and toxicology, pharmacy practice and management, clinical pharmacy and public health issues... DUPHAT is a conference that intends to meet the interests of different health professionals such as pharmacists, clinicians, pharmaceutical industry, researchers, academics and other healthcare professionals. The event is perfectly organized by Conference Chairman - Dr Ali Al Sayed Hussain and his team, in one of the most impressive cities in the world, Dubai, with fabulous infrastructure. As the president of IATDMCT I'm proud to support such exciting conference. ”

**Prof. Pierre E Wallemacq, PhD, EuSpLM**  
President of the International Association  
of Therapeutic Drug Monitoring &  
Clinical Toxicology (IATDMCT)
